

SKULLERZ®
HEAD PROTECTION

PROTECTION FROM EVERY ANGLE

Get enhanced protection from the dangerous impacts your brain bucket overlooks.

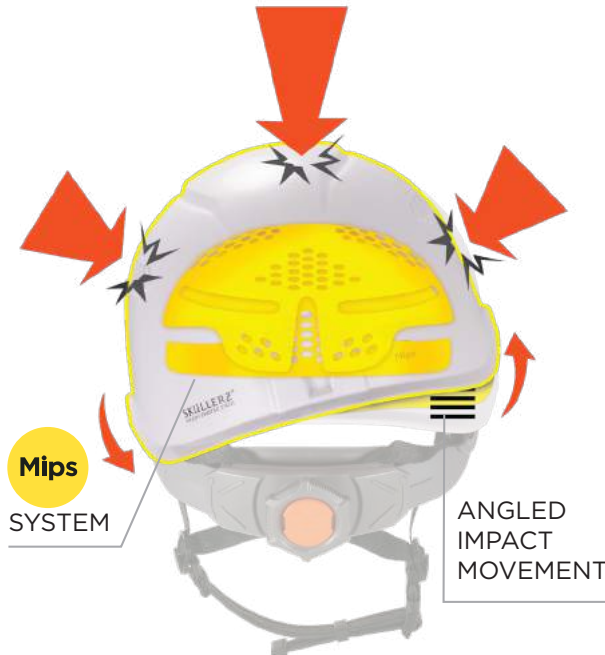

8974-MIPS®
CLASS E SAFETY HELMET WITH MIPS TECHNOLOGY

8975-MIPS®
CLASS C SAFETY HELMET WITH MIPS TECHNOLOGY

HOW Mips WORKS

Mips® Elevate helps reduce traumatic brain injuries caused by angled impacts to the head – a danger not tested for in current hard hat & safety helmet standards. Upon impact, this light-weight, unobtrusive layer slides in all directions to redirect rotational energy that otherwise could be transferred to the head and lead to tearing of the brain.
